Elitech

WT-6

Pin type solar energy thermometer

- Waterproof design, easy to clean; transparent shell, its internal structure all at a glance.
- Double solar energy batteries, energy saving and environmentally friendly.
- Freely switch between Celsius and Fahrenheit.
- Data Hold button for easy temperature reading.
- Wide temperature measurement range, fast response, wide application.

Product overview:

Beautiful and exquisite appearance, portable; waterproof and transparent design, confirm with ROHS requirements, power supplied by solar energy batteries; switch between Celsius and Fahrenheit; data hold function; extended metal probe rod; widely used in food, chemical and other industries.

Technical parameters:

Temperature range：-50℃～+150℃，（-58℉～+302℉）

Temperature accuracy：

±1℃（-20℃～+80℃），±3℃（-50℃～-20℃，+80℃～+150℃）
±2℉（-4℉～+176℉），±6℉（-58℉～-4℉，+176℉～+302℉）

Resolution：0.1℃ or 0.1℉　　　　　Product size：Ø22×200mm

Probe rod size：Ø3.5mm，length 125mm

Operating environment：illumination: >=100lux

operating temperature：-10℃～+60℃（+14℉～+140℉）

Storage temperature：-20℃～+70℃（-4℉～+176℉）

Key functions：

● HOLD: temperature data hold.

Note:

● The product shall not be used beyond its operating temperature range.
● The product shall not be stored beyond its storage temperature range.
● The top of probe rod is very sharp, please take care.
● The product is stored under dry and dark environment.
● Non-professionals should not take apart the product.
